## Research interns

This is the summertime ☀️ when you can take your step forward.

We are looking for young professionals who want to learn how to work with geospatial data and Machine Learning to solve real-world problems.

If you have enough time and motivation to bring your research project to a meaningful outcome.

We help you to get sufficient resources of infrastructure and supervise your intermediate results.

Domains:

- *Machine learning / CV*
- *Geospatial analysis*
- *Earth Observation data processing*
- *Aerial imagery / UAV data processing*

👁️ We are looking for a **Geospatial analyst intern** who is passionate about maps and data and wants to elaborate on the application of #AI technologies and #EarthObservation to the mapping in emergency situations and natural disasters.

Being a small company we stick to the product dev / commercial cases, yet we are keen on contributing to humanitarian initiatives to help other researchers and early responders. If you are interested in helping others with the adoption of #EmergencyMapping technologies and developing your skills in this field, we encourage you to contact us.

Shoot your CV to [hello@geoalert.io](mailto:hello@geoalert.io) we look forward to having you on our team!
